

FOOTWEAR DEODORISER (SPRAY ON)

The deodorant for outdoor equipment hygienically and effectively reduces odors.

How to use:

Shake the bottle

From a distance of 10 to spray into the shoe / helmet. Avoid contact with the visor

Let dry before use

As the footwear absorbs water and sweat, the breathability of the shoe is reduced. Bacteria and mold create an unpleasant odor. Using our deodorant will reduce and eliminate the odor. Can be used on shoes, helmets and gloves. STORM deodorant is hypoallergenic when dry, which means that it can be used on products that touch the skin without causing allergies.
