

DOWN WASH (WASH IN)

A specially detergent for products filled with down. Maximizes fullness, restores breathability, extends the life of the garments and is gentle to the materials.

How to use:

Shake the bottle

Put 75ml into the detergent compartment

Wash according to the manufacturer's instructions

How to tumble dry:

Gently dry down items of clothing in the tumble dryer with the 2 drying balls

The drying balls ensure that the down is shaken up well and regains its original volume

Down is a very delicate material, so it is important to ensure that the down's natural oils are not leached out during the cleaning process. It is not recommended to use conventional detergents because it decrease the of quality of the down. Our STORM Down Cleaner with a balanced pH value enables the fibers to be cleaned gently, so that they remain soft, maximize volume and ensure a long time happiness. When cleaning the down, you should choose a gentle program and then dry it in the tumble dryer with the drying balls longer than usual.
